Being Different

**I am
who I am**

MY CULTURE IS
AN IMPORTANT
PART OF
WHO I AM

**EVERYONE'S
EQUAL**

"Liking Hurling
doesn't make me
a bad person"

**My faith is
important**

The colour of
my skin is just a
small part of me

**I'M STILL
ME**

Being Different

You might share the same eye, hair or skin colour as a parent, brother, sister or other relative but you will have your own physical characteristics and personality traits - each one of us is different.

People have different family structures, abilities, sporting interests, religious beliefs, political beliefs, sexual orientations, cultures and your views on these develop as you mature.

Family and friends can influence your views on others. This can have a positive or negative impact. These views can happen when a person feels threatened by anyone who seems different.

Not People

It is wrong to treat people differently or unfairly because of how they look, or because they go to a different school or have different interests, beliefs or have a disability. If you experience prejudice tell someone

what's happening to you. Speak to a parent, teacher, youth worker, school counsellor or someone you trust. **There are other sources of support available.**
